

Efficient, high-performing Carrier solutions

Designed for K-12 School Districts

Partner with Carrier, a global leader in intelligent climate and energy solutions, to help optimize your learning environments, enhance air quality, and reduce costs. Our K-12 experts work closely with you, offering innovative design, planning, and construction approaches to address maintenance needs and invest in environmentally sustainable solutions. As new goals and challenges converge in K-12 education, with Carrier you not only gain leading edge equipment, but a trusted collaborator to provide unparalleled expertise and technologies to support your objectives.

Lifecycle solutions to support
your operational, energy and
sustainability goals.

Opportunities You May Unlock Collaborating with Carrier

- Improve indoor air quality
- Reduce annual energy and operational costs
- Access to tax credits and grants
- Reduce costs for sustainable energy system installations
- Simplify temperature control
- Advance energy efficiency and sustainability efforts

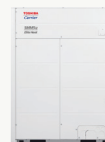

The right partner at the right time.

Carrier understands the unique operational and performance needs of K-12 districts, as well as the complexities of federal, state, and local funding programs. We are committed to helping you leverage available resources efficiently. Our education team works closely with schools to implement cost-effective, energy-efficient solutions. By working directly with Carrier experts, you can streamline the process of facility upgrades and make lasting improvements that foster a healthier, more sustainable future for your school.

Fully prepared to support your facility needs.

A true end-to-end partner, Carrier offers a full portfolio of advanced HVAC solutions that can be customized to meet the needs of any project. Plus, we offer the expertise to support it through design, installation, maintenance and ongoing operations.

Get started with a K-12 specialist.
